

BEAVERTAIL

Dog Ladder Instructions Item 400195 (91210)

Parts included in kit

Completed Dog Ladder

1. Insert the C-hooks into the top of the dog ladder and tighten with the thumb screws. The C-hooks can be adjusted in or out to properly fit the boat it is mounted on.

2. Insert the main bottom poles into the loops located at the bottom of the ladder top. Tighten in place with the thumb screws.

3. Insert base adjustment poles into the main bottom poles and tighten in place with the thumb screws. These poles may be adjusted in or out to fit a particular boat.

4. Attach the bottom half to the top half by inserting the long rod through the hinges and securing with the small pin. Assembly is complete.
